CARRIAGES!
CARRIAGES! CARRIAGES!!

THE SUBSCRIBER hereby gives notice that he has been appointed agent for the sale of Sargent, Harlow & Co's Top Carriages of all descriptions, which he is prepared to deliver at his

Carriage Shop on Franklin Street,
Thereby affording to citizens of Bangor and vicinity, in want of such Carriages, an opportunity to purchase direct from the best manufactories in New England, at the manufacturer's prices.
Also, that he still continues the

CARRIAGE MAKING BUSINESS,
In its various branches, including,
Repairing, Painting and Trimming,
In the best manner, and at the very lowest prices. From his experience, his facilities for doing business and the character of his workmen, he flatters himself that in the production of durable and substantial Carriages his establishment will be second to none in the State.

MR. GEO. S. WALKER,
Well known to be one of the best Carriage Painters in New England, still has the charge of his painting department; offering a very rare inducement to those who would have their work done in an elegant and durable manner, to leave their work at this establishment. *All work warranted to give entire satisfaction*, and all bills for work payable when the work is done.

A letter in the Independence of Brussels gives the following account of the circumstances which preceded the armistice:

"The Emperor of Austria having caused a demand to be made in the French camp if it were not possible to obtain the remains of Prince Windischgraetz, who was killed at Solferino, the Emperor Napoleon caused them to be sought for—and they were recognized, partly by his uniform, and partly by some letters to his newly married wife, which he had about him. The corpse was placed in an artillery wagon and conveyed, accompanied by an officer of the Staff and an escort, to the Austrian headquarters. The officer expressed to the Emperor the condolence of the Emperor of the French, and his Austrian Majesty (who was just recovering from a somewhat severe indisposition) begged, not without emotion, the officer to convey his thanks to the Emperor Napoleon, and to express his sorrow at the death of so many brave men in the French army.

This led to some remarks on the cruel necessities of war, and from what was said, the Emperor Francis Joseph was able to perceive that those necessities were regretted as much by his opponent as by himself. The Emperor Francis Joseph afterwards sent the son of General Urban with a flag of truce to the French camp, as is known, and the Emperor Napoleon, by an autograph letter, proposed a suspension of arms.—It is added that the latter has carried his courtesy to the extent of neutralizing, for the signing of the preliminaries of a truce, the town of Villafranca, although the usages of war would have justified him in requiring those formalities to take place at his own headquarters."

The Chicago Press and Tribune has the following cheering news from Iowa:

"We have most cheering intelligence from our political friends in Iowa. The campaign has opened under the most favorable auspices, and there is every reason to believe that the Republican ticket will be elected by a larger majority than has ever before been given in that State. Not only are old Republicans coming up to the work with their wonted zeal and determination, but we hear of important accessions to the Republican ranks in every county from which we have advices. Among the most important of these are Col. Scholte and Maj. E. W. Eastman. Both these gentlemen have long been recognized as among the ablest and most influential leaders of the Democracy in that State. They have been driven from the party by its intensely Pro-Slavery character, and are now doing good service for Republicanism.

Col. Scholte is at the head of a campaign paper, and Maj. Eastman has taken the stump.—Many of the old political associates of these gentlemen have resolved to take sides with them in their stand for Republicanism. Meanwhile Brigadier General Augustus Caesar Dodge not only declines to accept the challenge of Mr. Kirkwood to discuss the questions involved in the canvass before the people of Iowa, but, in consequence of the stampede from Democracy to Republicanism, he is said to wish to withdraw from the canvass entirely. Present appearances indicate that his place on the State ticket will be supplied by another man; but whether it will be Brigadier, or Fisher, or Samuels, the results will be the same. The Democracy of Iowa are disheartened and demoralized. The honest portion of them are deserting the rotten organization by platoons; the remainder admit that their defeat is inevitable, and nothing but the hope of reward from the Federal Administration prevents them from abandoning the contest."

THE PEACE OF THE EMPERORS. A recurrence to the history of the revolutionary war in Italy in 1848 may be suggestive at the present time, when all are busy with conjectures as to Louis Napoleon's objects in so summarily concluding the Italian war. Before the end of March 1848, Lombardy and Venice were wrested from Austria; Radetzky was shut up in the quadrangle waiting for reinforcements. In April, 1848, Austria (now in a more desperate plight) offered through Count Hartig the following propositions to the victorious Italians:

"1st. The independence of Lombardy and Venice, reserving to Austria a nominal presidency; or

"2d. The absolute cession of Lombardy, with Austrian forces concentrated at Verona; and a continued occupation of Venice—(virtually the terms of July, 1859.)

These terms were rejected by Palmerston, in behalf of the great powers, because they were not advantageous enough; there were no guaranties of Italian independence and order. The Italians rejected them mainly because the territory ceded was not large enough; with Lombardy and Venice they wanted Trieste, Trient, Tyrol, Isonge, Istria and Dalmatia, as well.

This was in the month of April, 1848. In June, Francis Joseph wished Radetzky to make the same offer. The Italians would not listen to it; Radetzky himself did not urge it. By the 10th of August, 1848, all Lombardy was again in the hands of the Austrians. August 30, 1849, Radetzky entered Venice in state.

Napoleon III., knowing how apt history is to repeat itself, especially Italian history, may have consulted this passage in July, 1859, before making his treaty of peace with Francis Joseph, and thereby learned to avoid too much consultation with Italians, as carefully as he avoided pushing the Austrians to extremities that would call out the great powers.

It is a fact not generally known that the printing of the Bible is a monopoly in England. Only the Queen's printers, Eyre & Spotswood, and the Universities of Oxford and Cambridge have any legal right to produce copies of the Scriptures. The patent was granted in the reign of George IV., and is very stringent. In Scotland and Ireland the restriction was abolished some years since, and notice has been given in the British Parliament of a motion to discontinue the monopoly in England, after the present patent expires, in 1860. The reason for it originally, was to secure accuracy, but the authorized editions have contained more typographical blunders than those printed in Scotland.

THE JEWS IN AMERICA. From a Lecture delivered by Dr. Morris J. Franklin, in Providence, on Sunday evening, and reported in the Providence Evening Press, we gather some facts in relation to the Jews in the United States. The Jews in this country, the speaker said, now number about two hundred thousand. In New York city alone there are forty thousand. The attention of the Jews in Europe is turned toward America, on account of the persecution to which they are subjected in some countries of the continent, and a rapid increase of their numbers here may be expected by immigration. Many Jews in this country are occupying prominent and influential positions in politics and business. Messrs. Yulee and Benjamin of the U. S. Senate, and Messrs. Zollicoffer, Oliver, Phillips, and Hart, of the National House of Representatives, are numbered among the children of Abraham. Instead of reading the Scriptures in the Hebrew tongue, understood only as the Rabbi interprets it, many now use the English version. This class have introduced many reforms into their mode of worship—they now have their choirs, their organs, and their Sabbath Schools. The Hebrew Christians, the converted Jews, in this country, number three or four hundred, and of this number nearly one hundred are engaged in preaching the Gospel of Christianity, or in a course of study preparatory to doing so.

THE ART OF HEARING. This is the season of College Commencements and Seminary Anniversaries, when it is expected that new force will be given, both by precept and example, to the various rules for the art of good *speaking*. We wish much to hear a few dissertations explanatory and promotive of the art of good *hearing*.

We saw, in last Thursday's Boston Transcript, as extracted from "Reynold's Miscellany," an ingenious article entitled, "The art of *not* hearing." We may very likely, copy it at some future time; but we have now to do with the art of hearing—or good, honest, *bona-fide* listening.

LISTENERS—not eaves-droppers—it seems to us are a great desideratum in this talking age. Give us such an one, we say, over and above the most interesting colloquial man in the world, in the long run, and taking the seasons through. Not that we want to talk much ourself, or have much of the "gift of the gab;" but we want silence enough pervading a mixed assembly, not to lose, by an incessant jabber, the gems of thought and expression that may drop from those who can and do speak to edification, because they speak considerately and understandingly. Taking to ourselves half an hour's leisure, the other day, in a public room, we were more than ever struck with this mag-pie propensity to incessant and continually interrupting talk. No one had an opportunity of half stating, much less of elucidating, any proposition.

There is an all-pervading error, it seems to us, on the subject of fluency of speech—it being regarded by very many as indicative of fertility of thought, and exuberance if not richness of ideas. DEAN SWIFT, in his quaint way, illustrated the matter better—bating some little from his intended sarcasm upon women:—

"The common fluency of speech in some men and most women, is owing to a scarcity of matter and scarcity of words: for whoever is a master of language, and hath a mind full of ideas, will be apt, in speaking, to hesitate upon the choice of both; whereas common speakers have only one set of ideas and one set of words, to clothe them in, and these are always ready at the mouth;—so people come faster out of a church when it is almost empty, than when a crowd is at the door."

DARTMOUTH COLLEGE. A meeting of the Alumni of Dartmouth College was held on Thursday last, Judge Parker in the chair, to make arrangements for having a eulogy pronounced upon Mr. Choate. Speeches were made by Judge Barrett of Vermont, John A. Richardson, Esq., of Durham, N. H., (a classmate,) Judge Eastman, Profs. Shurtleff and Brown, Nesmith of Franklin, Col. Brewster of Boston, and Mr Blaisdell of Hanover. Resolutions of respect were passed, and Committees appointed to make arrangements.

At the meeting of the Phi Beta Kappa Society, Judge Perley of Concord was elected as Orator for next year, with Rev. Dr. Wadsworth as substitute; W. L. Butler, the "Nothing to Wear" man, is elected Poet, and Rev. Dr. Swain of Providence, substitute.

The London Medical Times publishes a valuable statement made by M. Armand, of the Fourth French Army Corps, respecting the condition and surgical treatment of the wounded in the recent battles in Europe. In speaking of the effect of the new projectiles, the writer remarks:

"The armies now engaged both use the new fire-arms, the balls of which deviate far less after striking an object than the old spherical balls. We must, therefore, expect a larger proportion of comminuted fractures. Hollow and explosive projectiles being also proportionally more employed, the artillery fighting has become more murderous. Altogether we have therefore to expect a greater proportion of fatal cases among the wounded than heretofore."

DARTMOUTH COLLEGE. Messrs. Aaslo of Andover, and Fairbanks of St. Johnsbury, have been appointed to the vacant Professorships.

At the meeting of the Phi Beta Kappa Society, Judge Perley of Concord was elected as Orator for next year, with the Rev. Dr. Wadsworth as substitute; W. L. Butler, the "Nothing to Wear" man, is elected Poet, and Rev. Dr. Swain of Providence, substitute.

SUMMER HEAD DRESSES. The intense heat of the summer in Europe has induced some modifications of the prevailing fashions. A letter from Paris reports the following information concerning bonnets and caps:—

Fashion in bonnets is nearly at a stand still, and our *artistes*, for the time being, have ceased racking their brains for novelties. The newest thing we can mention is a bonnet made of fine black hair, embroidered with buttercups in silken straw. The ribbon used for the trimming has a black ground, and the flowers at the side are entirely black with jet centres. The effect of this combination is very original, and it has the advantage of defying dust.

The heat is too great for caps to be worn in the house, and their place is prettily supplied by *resilles* of silk lace. A wide ribbon goes all round and terminates in a bow on one side; but in order to render this coiffure perfectly graceful, it should have something like a light hood at the back. If the *resille* is made of gold or silver thread, it can be worn in the ball-room by young girls, and Spanish acorns finely worked serve to complete it. Fair women can wear the hood of black lace, which keeps its freshness and is not oppressively hot. Elderly ladies can line them with thin silk, and those who have plenty of hair, have only to put a flower on one side, and they are at once in possession of a charming coiffure.

Mrs. Perkins says she can't understand these 'ere market reports. She can understand how cheese can be lively, and pork can be active, that is before it is dead—and feathers drooping, that is if it's raining; but how whiskey can be steady, or hops quiet, or spirits dull, she can't see; neither how lard can be firm in warm weather, nor iron unsettled, nor potatoes depressed, nor *hides* falling, unless they are cowhides, nor flour rising, unless there had been yeast put in it—sometimes it would not rise then.

ORIGIN OF CRINOLINE. This was originally the name of a Parisian *modiste*—one Madame Crinoline, who kept a set of dressmaking rooms in the Rue de la Paix—it eventually came into use to denote the article most in repute at her establishment. She it was, who, by the invention of horse-hair woven into a sort of cloth and manufactured into petticoats, enabled the fair sex to dispense with that clumsy abomination which always places them, if not in a headlong hurry, certainly in—*a bustle*. The name of the petticoat was given from that of the inventor, as has frequently happened; the crinoline, the petticoat, was derived from Crinoline, the dressmaker.

A TORRID TERM IN EUROPE. The foreign journals received by the Europa contain numerous paragraphs about the terrific heat of the first half of the last month. Our Paris correspondent, in his letter in another column, sighs for a Boston east wind and a pitcher of iced Cochituate. July 6th was reported to be the hottest day ever known in the south of France—the thermometer attained the extraordinary height of 118 degrees of Fahrenheit's scale. There has been no heat approaching to this since July, 1852, and then the highest degree marked was but 111 Fahrenheit.—*Boston Journal.*

PERSONAL. Mr. Walworth, a wealthy planter from Arkansas, who is one of the old *habitues* of Saratoga, has made a will in which he bequeaths $50,000 to the State of New York towards founding a hospital for the blind; if the State should refuse to accept it, it is to go to the State of Michigan, and if not accepted by Michigan it is to go to Ohio. Mr. W. is himself blind.

Hon. John Gayle, Judge of the United States District Court for Alabama, died 21st ult. The deceased was twice Governor for Alabama, and represented the Mobile District one term in the Congress of the United States.

A FAST AGE. In two months and one day from the time the Emperor Napoleon left Paris he made peace with the Emperor Francis Joseph at Villafranca. In this interval the French army was engaged in five or six battles, two of which may be numbered among the greatest battles the world has ever seen. The Emperor seems likely to redeem his promise to hunt at Compiegne in September.

On the 20th inst., at Comargo, Ky., fire was accidentally communicated to a keg of powder in the store of Dr. Daniel, which exploded instantly with a tremendous force, tearing the building to atoms, sending goods and other property in every direction, and seriously if not fatally injuring eight persons. The floor is the only part of the house remaining, and the post office being in the same building, was also destroyed, and the mail matter scattered about.

The statue of Senator Douglas, which was ordered by Gov. Matteson for his new mansion, is on exhibition at Springfield, Ill. The sculptor is Mr. Volk of Chicago. The statue is the exact size and counterpart of Mr. Douglas, and cut from marble from Vermont, his native State. It is said to be a master piece.

THE CUBA MAILS. Mr. Helm, U. S. Consul General at Havana, has effected an arrangement with the Governor General of Cuba, by which it is settled that *all mails* for the United States, shall be made up in the Consulate of the United States, under the charge of the Consul General, and be dispatched by him on board of the steamers of the United States or other vessels, from and after the first of November. A prompt and faithful transmission of correspondence will thus be secured.

ELECTIONS IN AUGUST. During the ensuing month, five State and Congressional Elections will or have taken place, viz:—In Alabama, Texas, and Kentucky on Monday, the 1st inst.; in Tennessee, on Thursday, the 4th; and in North Carolina, on Thursday, the 4th.

SHOCKING ACCIDENT. On Thursday last, a farmer, named West, living in Franklin, Delaware Co., N. Y., was instructing his son in the use of the scythe, and while the boy was swinging the instrument, it struck the father on the thigh, dividing some of the principal arteries, and the unfortunate man bled to death in fifteen minutes.

When packages of tea were first sent to Scotland as a rare luxury, one good housewife boiled tea to make a mess of greens, while another made it into a gravy to pour upon roast meat. The Caledonians probably know better now. The luxury of tea and coffee was known in the Shetland and Orkney islands, long before it was known in London.

IMPROVED FRICTION MATCHES. The common friction matches are not water proof, and are often so affected by even the moisture in the atmosphere that no light can be obtained from them. It is not the sulphur which is thus sensitive to humidity, but the phosphoric composition. By a recent invention they are made water-proof without increasing the cost. Instead of dipping them first in sulphur, then in phosphoric composition, they are dipped in the composition first, then in the sulphur, by which method the phosphorus has a water-proof covering, which breaks off at the first attrition, leaving the phosphorus bare to be ignited.

There is no lock that requires such careful "picking" as wedlock. In most cases a key of *brass* is found to fit it best.

Supreme Judicial Court—August Criminal Term.

APPLETON, J., PRESIDING.

Tuesday, August 2.

The Court was opened at ten o'clock with prayer by Rev. Mr. Turbox.

The names of the Grand Jury were called, and all but two of the Jurors answered to their names. One of these, Mr. Dudley of Oldtown, Foreman, sent his excuse of sickness, and the Court instructed the Jurors to appoint a Foreman, pro. tem., when they retired.

The following persons, convicted at a former term, whose sentence had been suspended in consequence of exceptions, were brought in and sentenced.

Nathaniel Tibbets. Burglary. Three years to hard labor in the State Prison.

Merrill S. Buck. Larceny of two wolf robes, the property of Caleb Billings.

The prisoner by himself and by J. Hill, Esq., his counsel, asked for delay, that he might satisfy the Court by testimony that he had newly discovered evidence that would insure him a new trial. The prisoner said he had been ill-treated throughout in these trials—had not had a fair chance—was severe upon witnesses and others, for the manner in which they had followed him up—thought the Court was unjustly prejudiced against him, could satisfy the Court that some one else stole the robes if he only had time—said the charge that he knocked down the jailor was false, &c. But the Court thought he had had a fair trial—had had all the delay that a reasonable man could expect—on affidavit that he could produce testimony of his innocence and by exceptions,—and sentenced him to hard labor in State Prison for three years.

Merrill S. Buck. Burglary and larceny from Joseph Forbes.

B. Kimball, Esq., in behalf of the prisoner, claimed delay until he could prepare a petition for a new trial,—assured the Court that he was addressing it *bona fidely* and not for humbug—that he believed the prisoner had evidence that would entitle him to a new trial.

Court—How long have you been in possession of the facts?

Kimball—They came to my knowledge within a week. I went to Burnham to ascertain the facts. I think justice has not been done the prisoner—hope the Court will not be unjustly prejudiced against him.

Co. Att'y Crosby—Common rumor says the gentleman went to Burnham to get sureties in order to replevin the prisoner. I object to any delay. When the prisoner filed his affidavit he alleged one set of facts, and he knew whether they were true. He has not made good his allegation—now I protest against any delay on account of another set of antagonistic facts which his counsel has been getting up for him.

Court—No sufficient reason has been given for further delay.

Sentenced to three years' hard labor in State Prison, to commence after the expiration of the first sentence.

Merrill S. Buck, larceny of wolf-robe from Daniel Wingate. J. Hill, Esq., asked for a light sentence in this case, as the prisoner had been in jail already a year, is out of health—his sentence to two terms, amounting to six years, was fully severe. Sentenced to one year hard labor in State prison, to commence after the expiration of the second sentence.

Charles W. Patten. The success of Mr. Buck in obtaining suspension of sentence, encouraged Mr. Patten to ask a delay of three or four days, until the last of next week, in order that he might prove to the Court that he was unjustly convicted. The Court listened patiently to all the prisoner had to say, but sentenced him to three years hard labor in State prison.

A NEW DIVISION OF THE SONS OF TEMPERANCE. A Division of the Sons of Temperance was instituted at Frankfort village on Monday evening, last, by D. G. W. P. Colby, at which Rev. B. Dodge was elected W. P.; S. Doe, W. A.; C. W. Pierce, R. S.; W. Pierce, A. R. S.; H. Howe, F. S.; J. Lord, T.; E. P. Blaisdell, C.; J. T. G. Allen, A. C.; J. Knowles, I. S.; L. Stinson, O. S.; P. McPhee, P. W. P.; Rev. S. F. Stront, Chaplain.

This Division starts under very favorable auspices, having the hearty support of some of the most determined temperance men in the town.

We are requested to state, for the benefit of posterity, though of less importance to the present generation, that in one of the iron columns supporting the floor of the First Parish Meeting-house, a roll has been deposited containing, among other things, the following articles:

A copy of the Church Confession and Covenant, printed in 1841;

A copy of the same in the edition of 1856 with a printed catalogue of members;

A manuscript list of members received since 1856, with the names of the present Church officers and the Building Committee;

A printed Sermon by the present pastor.

The printed schedule of Lessons for the Sabbath School, for 1858 and 1859;

The last printed Catalogue of the Bangor Theological Seminary;

And the Daily Whig & Courier of July 2d and 27, 1859.

Peter Mitchell, the well-known Indian, living on White's Island, Big Lake, was shot, 26th inst., in his own door, the whole charge entering the right arm near the shoulder, by the accidental discharge of a gun in the hands of Joseph Dulliml. He lies in a very precarious condition, some of his fellow Indians refusing to have Dr. Holmes amputate it.—*St. Croix Herald.*

The St. Croix Herald says that the Light House on the St. Croix Island, in that river, is to be discontinued on the 1st of August—so says a recent order to that effect from head-quarters.

LOSS OF A WATCH—*Fortunate Recovery.*—On Sunday a gentleman of this city noticed a horse, with a carriage attached, running at full speed through Exchange street. He sprang to the horse, seized the reins, and after being dragged some distance succeeded in stopping the animal. About two hours afterwards he discovered that he had lost his watch, a valuable gold one. He immediately returned to the place where he had stopped the horse and found his watch lying in the street, in the track of the carriage apparently uninjured. The chain had become detached from the watch and a dog had been noticed playing with it in the street.—*Portland Argus.*

The store occupied by Geo. D. Beck at North Gotham, with the stock of goods therein, was entirely consumed night at about eight o'clock. Cause of the fire is unknown—no insurance.

KILLED BY LIGHTNING.—During the thunder shower of last Tuesday evening, the electric fluid passed down the chimney into the house of a Mr. Robinson, at "Millriver," Millbridge, and instantly killed Mrs. Fickett, widow of the late Capt. Stillman Fickett, of that town. A Mrs. Brown, in the house at the time, was very much injured, but will probably recover. The house was badly damaged.

The same afternoon, the Lightkeeper's House on Petit Menan Island was struck, and although it contained fourteen persons at the time, no one was hurt.

During the same tempest the house of Mr. Gamaliel Pineo, at Columbia, we hear, was struck by lightning, but the extent of the damage, if any, we have not learned.

Rev. Mr. Byther of Addison Point, will preach one half of the time to the Universalists of Machias. They use the old Court House for a place of worship.

The Machias Republican says that the store of Levi Leighton, Jr., of Epping, Columbia, was entered by burglars on Friday night and $800 taken from the safe.

Mr Wm. Wooster, of Columbia, killed a bear in a logging road on Saturday last. A bullet between the eyes fixed the flint of his bearship.

ACCIDENTS.—On Tuesday, 26th ult., the barn of Mr. Asa G. Talbott, of Avon, was struck by lightning, and burned, with about 20 tons of hay and some twelve or fifteen bushels of corn. It was a large barn and all the one on the farm.

A GOOD MAN GONE TO HIS REWARD. Rev. S. S. Gould, late pastor of the Congregational Church in Poland, died suddenly at the residence of Mr. Johnson in Frankfort, on Saturday last. Mr. Gould left his pastoral charge a few months since, on account of ill health, and was engaged as an agent for the Bible Society in Waldo co., and while in that field of labor, he fell a victim to malignant erysipelas, leaving a large circle of friends to mourn his loss.

SAD NEWS. A telegraphic dispatch from New York was received at Frankfort on Monday last, stating that Capt. Charles Campbell of that village was no more for this world—that his body had been found, but the means by which he came to his death was not known.

The yellow fever is prevailing to an alarming extent in the West Indies. News was received at Bucksport on Saturday last, that Capt. Ginn of that village, and one of his crew by the name of Gilman had fallen victims to it, and others were not expected to recover.

In Memory of the Rev. Geo. H. Shepard.

Alas! this heavy, heavy night!
Alas! our groping, failing faith!
Alas! the anguished heart that saith
Still must Thy way, dear Lord, be right.

Ah! who can bear the days forlorn,—
The weary waitings for the dead,—
The listenings for his manly tread,—
The nights that slowly wear to morn!

O Christ, reach down Thy stronger arm,
To this, our piteous Pride's need!
Such good, Thy royal love decreed
From all this seeming wreck and harm.

O! work divinely 'bove our strife!
Bring final peace from passing pain!
Bring out of loss a heavenly gain,—
Bring out of Death a nobler life.

O, love divinely while we mourn!
Lean nearer to each grieving soul,
And through a mystic sweet control,
Be dearer than the dear one gone.

But O! 'tis blessed to have given
Our friend to walk in happier ways,
Blessed to know these sorrowing days,
Have been to him an hour of Heaven.

So is it worth some woe to come,—
With the ill of God's great peace,—
Great peace, though man doth fail and cease,—
Peace broadening thro' the Eternal Home.

Bangor, August 2, 1859. C. P. H.

NOW READY!
HISTORY AND DESCRIPTION
OF
New England,
VOLUME ONE, 1859 [illegible]

Embracing the States of Maine, New Hampshire and Vermont.

By A. J. Coolidge and J. B. Mansfield.

THIS Work is designed to afford a graphic and correct picture of every Town and County in New England, in a historical, topographical and statistical point of view. Almost every son of New England will here recognize the familiar name of his ancestors, or neighbors, among those who were early settlers, or have acted a prominent part in the history of his native place. More than eleven hundred and fifty towns are described in the first volume, each occupying space according to its importance, varying from one fourth of a page to ten pages. Its value is enhanced by the fact that every town, however unimportant, has a place in it; have also the villages and post-offices, easy reference to which is found in a very copious and carefully prepared Index.

In addition to the body of the work there is a supplementary account of towns and plantations in Northern Maine, particularly in Aroostook county; a full list of works on New England [illegible]; a Table of Lights on the Coast, with their relative positions and signals; the names of the Presidents of the United States, Presidential candidates, and the popular vote for each, of Presidential Electors, and the Electoral votes; of Governors and Gubernatorial candidates, and the votes for each, and of members of Congress, all from the organization of the several States to the present time. It is illustrated with upwards of Eighty beautiful

PHOTOGRAPHIC VIEWS

of Cities, Villages, and places which are particularly interesting on account of their Historical association; besides which it contains a carefully drawn and handsomely engraved

Township Map of each of the States.

This work is, beyond comparison the ablest, and at the same time the most popular work on New England History that has ever been presented to the American public.—[*Portland Daily Advertiser.*

I have examined the first volume of the "History of New England," and am surprised at the amount of labor that has been expended upon the work and the fullness and accuracy with which the numerous articles have been prepared. The mechanical execution and the illustrations are honorable to the arts, and add to the pleasure of consulting the work.—[WM. WILLIS, President of Maine Historical Society.

I am truly gratified with the appearance of your "History and Description of New England." It contains a vast amount of matter of great interest and value to the people of New England, which has never before been published, and is now made accessible to all. Your book is deserving of a wide circulation, and I think you need have no doubt that an appreciating public with which you have to deal will triumphantly sustain you in the great enterprise in which you are engaged.—JOHN McKEEN, Sec'y and Treas'r Me. Hist. Society.

Published by *Austin J. Coolidge,* 50 Court street, Boston.

A NARROW ESCAPE.—On the same day of the above, as S. S. Lambert, Esq., of Phillips, was returning from the "Lakes," (Rangeley,) in the evening, he was violently thrown from his carriage by an electric shock, some three miles from home. He remembers seeing the flash and hearing the report, and sometime afterwards finding himself in the road. The shock is quite severe upon his system, but it is hoped that he will soon completely recover.—*Pearl.*

ACCIDENT.—On the 15th ult., Elder John Dennis, of Norridgewock, in returning from Dead River, by the horse taking fright, was thrown from his carriage, and badly hurt, but fortunately no bones were broken. The horse ran down a steep hill, badly damaging the carriage.—*Sun.*

LAUNCHED, by Messrs. Gardner & Longfellow, 30th, in Machias, schr. Harriet Newall, of 138 25-95th tons. She is to be commanded by Capt. Trevorgy. John Shaw was master builder.

FIRE.—The brick kiln in the yard of Capt. Plummer, of Addison Point, was destroyed by fire, last Thursday forenoon. Loss $250; no insurance.—*Machias Republican.*

Wasn't it the bricks that were burned, instead of the kiln?

REPORTED DEATH OF A SEA CAPTAIN.—A letter has been received in this city, announcing the sudden death, at Cronstadt, of Capt. J. Hovey Perkins, master of the ship Patterson, of Kennebunk, Me. The ship will return home in charge of the mate.—*Boston Herald.*

EXERCISE IN THE MORNING.—Walking is said to be most health giving, but an intelligent writer says that long walks should not be taken before breakfast, as by so doing an unnatural hunger is created, and the walker is apt to over eat, and injure himself. Early rising, early breakfast, and a moderate walk before commencing the business of the day, will prove highly beneficial to all those who lead confined and sedentary lives.

MASSACRE OF EUROPEANS IN BORNEO. We have accounts of the massacre of fifty Europeans, by the natives of the Dutch Settlement of Borneo. Disaffection at the course of the Dutch Government in sustaining an unpopular Sultan on the throne, with the intrigues of Mahometan priests led to the rising. Four German missionaries, three of their wives and nineteen children are stated to have fallen victims to the knife of the assassins!

WISTAR'S BALSAM OF WILD CHERRY. We call the attention of our readers to the advertisement of *Wistar's Balsam of Wild Cherry*, in another column, and assure them they can find no better remedy for coughs, colds, asthma, bronchial affections, or any disease of the throat or lungs.

In August, 1858, an estimable friend of ours returned from a visit in the country much emaciated, and laboring under a severe cough, which had made such rapid inroads upon her constitution that we felt something must be done at once, or she would become a victim of consumption. Having known the beneficial results which have occurred from the use of Wistar's Balsam, we made purchase of some for her, and are happy to say that before she had taken the contents of one bottle her cough had entirely left her, and she is now in the enjoyment of excellent health.—*Olive Branch*, June 25, 1859.

HEALTH AND STRENGTH SECURED

BY THE USE OF THE

Great Spring and Summer Medicine,

DR. LANGLEY'S

ROOT AND HERB BITTERS,

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease.

The effect of this medicine is most wonderful.—It acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main wheel of so many diseases; Jaundice in its worst forms, all Billious Diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, and every Disease arising from Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it and you will never regret it.

Only 25 cents for a pint, 37½ cents for a large bottle. Sold by Dealers in Medicine everywhere.

Orders addressed to J. O. LANGLEY, or GEO. C. GOODWIN & CO., Boston.

Mothers! Mothers! Mothers!

Don't fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it the best and surest remedy in the world in all cases of Dysentery and Diarrhoea in children, whether it arises from teething or from any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

None genuine unless the fac-simile of CURTIS & PERKINS, New York, on the outside wrapper.

Sold by Druggists throughout the world.

5000 AGENTS WANTED, to sell four new and one (million) inventions—wanted by every family.—My agents have cleared over $25,000 selling one of them. Articles are light, cheap, easy to carry, and very taking. Several Diplomas, Silver Medal from American Institute, New York, and four patents, have been granted me for them. One patent in England, and one in France. Put in four stamps and I will send you, gratis, 80 pages of particulars of the best agency in the country.

EPHRAIM BROWN, Lowell, Mass.

Whitten's Golden Salve is a step in the way of progress in the Healing Art. It is adapted for Sores, Humors, Wounds, and every kind of external inflammatory difficulty, of whatever name or nature, on man or beast. Made only by C. P. WHITTEN, Lowell, Mass. 25 cents per box. The usual discount to the trade. Sold by Druggists. Annoint thyself and be healed.

The Golden Salve—A Great Healing Remedy. It is with much pleasure we announce the advent of this new article in our city, which has met with such signal success in Lowell, where it is made, that the papers have teemed with cases of truly marvellous cures. They chronicle one where the life of a lady was recently saved—a case of broken breast; another where the life of a child was saved—a case of caking; another of a lady whose face was much disfigured by a scrofulous humor, which was brought to a healthy action in a few days, also, another of an old man, who had a sore on his foot for twenty years,—cured in a few weeks! Our citizens will not be slow in getting at its merits, and will herald it over the land.—*Boston Herald.*

Experienced Agents Wanted For Maine.

CHARLES SCRIBNER HAS IN PRESS, TO BE PUBLISHED shortly. Sample Volume for Agents now ready.

Diary of the American Revolution,

from Newspapers and Original Documents. By Frank Moore. In 2 vols. 8vo, of 500 pages each.—Embellished with Twelve Engravings, Maps and Plans on Steel. Price $5.

Sold only by Subscription.

The design of this work is to present a view of the American Revolution as it appeared to those who were actors in it. It is composed of selections from the Whig and Loyal newspapers of that period, together with extracts from hitherto unpublished private diaries kept during the war, and at once affords the reader a narrative in the original language and expression of both sides of the great questions which agitated the conflicting countries.

Copious Notes, illustrative of the more obscure portions of the text; Biographical Sketches of eminent Patriots, Statesmen, Military and Naval Commanders, together with an analytical index, will be attached to the work.

CHARLES SCRIBNER, Publisher,

124 Grand Street, New York.

N. B.—As no similar work has ever been published, and as the work must interest all classes, indeed every one who would view the American Revolution as it appeared to the actors in it, it offers special inducement to Agents. For terms and full particulars, apply to the Publisher.

Heimstreet's Hair Restorative.

This Hair Coloring is one of the singular inventions of modern times, and, in its way, deserves a prominent niche in the great storehouse of modern improvements. Every triumph of Art over Nature is curious, and often highly suggestive. When the vessels of the scalp become old, and but poorly perform their functions—worn out as it were, by the fevers of the brain, generated often by active mental strifes and excitements, nature marks the decay with a growth of gray or white hair. Here Heimstreet's Hair Coloring comes in, and *a few applications restore the vessels of the scalp to their original health.*—*Troy Budget.*

RAIN WATER FILTER.

THESE Filters have been fully tested for many years, by hundreds of families, giving the highest satisfaction. They are scientific in construction, with capacity and durability, to meet an increasing demand for pure water for drinking, and other domestic purposes.

The most impure rain, river or hydrant water, by this means, is made free from all foreign matter, (not held in solution) clear as crystal, without taste, color, or smell. In this condition, only, ought water to be used for all culinary and drinking purposes, as a sanitary means of promoting general health.

They have received the highest commendations from physiologists and professional men. They are portable, durable and cheap and are not excelled by any other Filter known.

To accommodate many of his customers the subscriber made extensive examinations of Filterers, and selected this as combining all of the advantages to be secured, and being the best and most desirable one ever invented.

SLATE!

THE Bangor and Piscataquis Slate Company having completed their arrangements for the manufacture of SLAB SLATE, are prepared to receive orders for any dimension which may be required, from a "paper weight" to a "Billiard Table."

The endless variety of uses to which this article may be applied, will readily occur to the artizan, and indeed to every observer of the progress of modern improvement in the arts of life.

Counters for Shops, Shelves, Hearths, Tables for Printers, Black Boards for Schools, are among the many purposes for which this article will be in demand.

The peculiar texture or grain of this one from the Brownville quarry, being entirely free from those *pearls, or cross grains*, which are apt to disfigure almost all other slates, renders the surface of the manufactured article smooth and true; and it is insisted, and probably will not be denied, that it is the *best Slate in the known world.*

Having recently filled an order for Messrs. Wheeler & Lynde, of the Whig and Courier, they have kindly permitted their Tables to be examined at their office.

The Company can also supply almost any quantity and size of Roofing Slate, and solicit orders in any of the branches of their business. Specimens at their office. Apply to C. B. ABBOT,

PATENT SOLID

COTTON BELTING

HAVING received the Agency for the sale of this Belting, the subscriber would call the attention of Mill Owners, Machinists, and others interested in the use of an *efficient and cheap* Belt to samples which may be seen at his counting-room, Lower Steamboat (Coe's) Wharf.

This Belting is formed by weaving several layers of Duck solid in one body, and like leather it partakes of the strain in all its parts, and gives a gain of power over every other kind in passing the pulley. It is especially adapted for open Belts, and for heavy and main Belts, while its elasticity allows it to be used on very small pulleys, and where quick speed is required. It can be made of any desired length without lap or joint. The cost of this Belting being about *one half* that of leather, will recommend it to the attention of every customer. Any width, from 1 to 25 inches, furnished, and extra width and thickness made to order. C. B. ABBOT.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including the transit of the Isthmus via Panama R. R.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line, as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without extra expense.* This is the *only* line giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama,* and tickets thus signed can be obtained of the *only authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city.

[*From the Providence Advertiser.*]

THE foreign and domestic demand for Perry Davis & Son's great medicine—the Pain Killer—was never before so large as it has been of late; and we think the time has arrived when the declaration may be made, without the possibility of refutation, that the City of Providence, in the State of Rhode Island, of the United States of America, has furnished the entire habitual globe with a medicine which, in point of universality of demand, extent of usefulness, complete efficiency for all the purposes for which it is designed, and widespread, enduring popularity, has never been equalled by any general patented medicine invented and issued either in Europe or America.

The universality of the demand for the Pain Killer is a novel, interesting, and surprising feature in the history of this medicine. It is now regularly packed, sent and sold in large and *steadily increasing* quantities, not only to every State and Territory of the Union, and every Province of British America, but to Buenos Ayres, Brazil, Uruguay, Peru, Chili and other South American States; to the Sandwich Islands; to Cuba and other West India Islands; to England and Continental Europe; to Mozambique, Madagascar, Zanzibar and other African lands; to Australia, Singapore, Mauritius, and to Calcutta, Rangoon and other places in India; it has also been sent to China, and we doubt if there is any foreign port that is frequented by American missionaries, travelers or traders, into which the Pain Killer has not been introduced and been sought after by the people. Yet few people have any idea of the vast amount of business done by the proprietors of the Pain Killer.

The extent of its usefulness is another great feature of this remarkable medicine. It is not only the best ever known for bruises, cuts, burns, &c., but for dysentery or cholera, or any sort of bowel complaint, it is a remedy unsurpassed for efficacy and rapidity of action. In the several great cities of British India, and in the West India Islands, and other hot climates, it has become *the standard medicine* for all such complaints, as well as for dyspepsia, liver complaints, and other kindred disorders. For coughs and colds, canker, asthma, and rheumatic difficulties, it has been proved by the most abundant and convincing trials and testimony, to be an invaluable medicine. The proprietors are in possession of letters from persons of the highest character and responsibility, testifying, in unequivocal terms, to the cures effected, and the satisfactory results produced, in an almost endless variety of cases, by the use of this great medicine.

We are fully justified in saying that no medicine has ever gained a popularity so strong, so extensive, and so enduring. Other preparations, in imitation of it, and containing *some* of the ingredients composing it, have, by means of extravagant advertising and deceptive statements, gained a short lived popularity, but their inefficiency and worthlessness have soon become apparent, and they have proved disastrous speculations to their originators and proprietors. The Pain Killer alone has been found the reliable and sure cure for the complaints and casualties for which it is designed. Its reputation is enduring, and a fortune to its worthy proprietors; and we may add that they are, in every sense of the word, worthy men and citizens. No men make a better use of their large means, and none are more truly generous and benevolent. No one, that we are aware of, envies them their good fortune, for it is believed that they have well deserved it.

New England Ailments

AND

THE ONLY REMEDY!!

THE Eastern States, included in that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity; with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost everything that conduces to social comfort and happiness. Unfortunately, they are so zealously employed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first disease is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or derangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

DR. J. HOSTETTER'S

Celebrated Stomach Bitters.

But that numerous class who devote themselves to literary and other sedentary pursuits, and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have long sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent.—Physicians of eminence and profoundly acquainted with the requirements of the human frame, commend *Hostetter's Bitters* as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a lively current, corrects a tendency to depression of spirits, and fits a man for the transaction of business with a cheerful heart and active mind. Unlike other medicines which have been devised for the same object, the BITTERS do not act spasmodically, or within temporary power—the influence of the remedy is lasting. If a patient will but give due attention to securing proper exercise, after the relief has been afforded, he need fear no return of the affliction. The debility natural to the encroachments of years upon the bodily frame is also alleviated by this great strengthening medicine, thus enabling the aged to pass their declining days in physical ease, whereas they are now suffering from extreme weakness and nervousness. To this interesting class of people, *Hostetter's Bitters* may be commended as invaluable. The proprietors of this invigorator have, in addition, a deep gratification in assuring *Nursing Mothers* that they will find the BITTERS the best and safest of restoratives. Very few medicines are sanctioned by physicians as proper to be administered during the period of nursing; and this has obtained an universal preference.

☞ Those who desire to purchase this great remedy for Dyspepsia and Debility should remember the precise title, *Hostetter's Celebrated Stomach Bitters.* It is put up in quart bottles, with the name, *Dr. J. Hostetter's Stomach Bitters,* blown on the bottle, and also stamped on the cap covering the cork, with the autograph of *Hostetter & Smith* on the label. These things are important, on account of the numerous counterfeits now in the market.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburg, Pa., and also sold by all druggists, grocers and dealers generally throughout the United States, Canada, South America, and Germany.

Sold wholesale and retail, by B. F. Bradbury and N. S. Harlow, Bangor; at retail by R. F. Kimball, Oldtown; S. Libbey, Orono; E. H. Parker, Bucksport.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington (under the Act of 1837.)

76 State Street, opposite Kilby Street,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy,* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGERT."

From Sept. 17th, 1857, to June 7th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor,* by the Commissioner of Patents. R. H. EDDY.

SHERRY WINE BITTERS!

Palatable and Healthy.

COMPOUND of Rock Rose, Winter Green, Yellow Dock Root, Sarsaparilla, Wild Cherry, Prickly Ash, Poplar Bark, Mandrake, &c. They operate on the three main organs of the human system—the blood, the liver and the kidneys, curing Jaundice, Loss of Appetite, Dyspepsia, Asthma, &c. For Asthma it is particularly successful. Annexed are extracts from a few of the many certificates of astonishing cures now in the hands of the proprietor:

J. W. ADAMS, Essex street, Melrose, Mass., says—"Dr Clarke's Sherry Wine Bitters have cured me of weakness, loss of appetite, and unhealthy state of the stomach, and they are the best Bitters before the public."

NANCY JENNINGS, of Sharon, Mass., was cured of Asthma of nine years standing.

CHARLES BENTON, of Providence, says, "They cured me of general debility, and I gained eight pounds of flesh in two months."

For Coughs, Colds, Croup, Lung and Throat Diseases, use Dr. Clarke's Cherry Syrup; it softens, loosens, soothes and heals the Lungs.

JAMES DAILY, House No. 1 South Cedar street, Boston, was cured of a severe cough of eight years standing by Dr. Clarke's Cherry Syrup.

MRS. D. A. CHEEVER, South Canton, Mass., was cured of a severe, long standing cough, and her children of croup and lung difficulties, by this Syrup. She says "I have more faith in it than all other medicine."

DR. MOWE'S

VEGETABLE BITTERS.

THE Public is here presented with a new Tonic, Alterative, and Cordial Bitter, compounded by Dr. Mowe, of Lowell, the inventor and proprietor of Mowe's celebrated Cough Balsam. These Bitters are purely vegetable, as is testified by the distinguished chemist to whom they were submitted for analysis. They are both pleasant to the palate and healing to the stomach, agreeable as a beverage, and efficacious as a medicine. They are fully equal to the richest and most aromatic liquor in flavor and color. Those in want of an appetizer before eating, and those afflicted with bilious derangement, nausea after taking food, with sour stomach, general debility of the system, and other like ailments, will find in these Bitters instant relief. Travellers will find in them a curative for sudden illness. They are superior to any bitters in the market. As a protection against counterfeits, these Bitters have been copyrighted by the District Court of the United States. The following certificates, from an eminent chemist and a distinguished physician of Boston, furnish a sufficient guaranty of the quality of these Bitters:—

BOSTON, August 4, 1858.

DR. DANIEL MOWE,

Dear Sir—Having subjected the sample of Vegetable Bitters received from you to the most careful chemical analysis, I am unable to detect the slightest trace of any other than purely vegetable ingredients in them.

I know of no medical composition likely to be more beneficial as a tonic, cordial and alterative than your Vegetable Bitters.

Very respectfully yours,
CHARLES T. CARNEY, Chemist,
138 Washington street, Boston.

BOSTON, August 4, 1858.

DR. DANIEL MOWE,

My dear Sir—I have given the sample of Bitters received from you a careful examination, and find it to be composed of only such vegetable ingredients as are highly prized by our profession for their tonic medical properties. The formula submitted to me shows the compound to be a well selected combination of valuable medical agents.

Yours, very truly, &c.,
J. CURTIS, M. D.

TESTIMONIALS.

[From a gentleman well known in the vicinity of Westfield, Mass.]

WESTFIELD, MASS., 24th Nov. 1855.

S. W. FOWLE & CO., BOSTON.—Gentlemen: I cheerfully give you my testimony, and, moreover, am desirous that the public should know the claims which your invaluable preparation of WISTAR'S BALSAM have to their attention.

About a year since I was attacked with a severe and distressing cough, followed by emaciation, night sweats, and other symptoms of approaching disease.

I tried many remedies to no avail, and so alarming did my case appear, that my friends entertained no hopes for my recovery.

At this juncture I purchased a bottle of WISTAR'S BALSAM, and at once began to improve. Before two bottles had been exhausted I had entirely regained my health and strength. I shall always keep it in my family.

DEAN GRAVES,
Of the firm of LOOMIS, GRAVES & Co.

[From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, N. H., more recently American Consul at Beyroot, Syria, and now Chaplain in the Navy.]

CONCORD, N. H., March 2.

Messrs. SETH W. FOWLE & CO.—Gentlemen: Two years ago, a sudden and violent attack upon my lungs confined me to my bed for several weeks, and when recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of WISTAR'S BALSAM OF WILD CHERRY, but without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used. Sympathy with my fellow-sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,
HENRY WOOD.

DR. NOYES will leave Europe again in time to visit Waterville (Elmwood Hotel) the first week in July. So large a number of patients besides those with diseases of the Eye and Ear, came to consult him on his return from Germany, three years ago, that he is induced to give this public notice.

Blindness, from catarrh or other causes, and the deformity or disease termed Strabismus, Squint, or turned Eye, treated on an improved method, and cured without risk.

He intends to bring with him, from Paris, some of Dr. Churchill's medicine for the cure of

CONSUMPTION.

It will be known that this able physician claims to have discovered a specific, or certain cure for this terrible malady, even in its last stages, if his medicines are *pure;* and that the treatment is such as he uses himself. Having seen his success, at his clinic in Paris, and learned of him his manner of treating lung affections, Dr. N. confidently advises the invalid to resort to it without delay. ja28 2w
